A progressive euchre party given by Fred Smith, last evening, the honor prize was won by Mr. and Mrs. Scott Crisman, the booby prize was taken by John C. Whits—a nursing bottle of milk.

THE PROVO Chamber of Commerce will discuss the question on the 13th. This is in response to the request sent out by the Salt Lake Chamber. Ogden will also join in the general demand.

THE CITY Council were engaged in considering the ordinances, last evening. The ordinance will be prosecuted more earnestly from now on in order to complete the work before the next new Council is elected.

TO-DAY the time given notice of on the 1st for the payment of poll tax, expires. Delinquents need not be surprised if, next week, they are proceeded against by the Supervisor of Streets. It is his duty to collect.

THE RECENT grading done on Second South street, between East Temple and West Temple Streets, is now highly appreciated. The good work, now being done on the same street between East Temple and First East Street, is greatly retarded by the frost.

NOTHING OFFICIAL has yet been received at the Marshal's office, concerning the pardon of Budger Clawson. Deputy Pratt said yesterday that he thought the papers would arrive by this morning's mail, although they might be delayed until to-morrow.

IF THIS Congress would only move the Indians out of Utah and throw their reservation open to the honest settler it would be the means of making many happy homes and would make room for a very large settlement of whites. In doing this they would be building up the country and adding wealth to its already rich treasury which could be well applied in many public improvements; but if they talk all the session away in discussing the tariff question, they will do more harm than good, for it won't amount to anything more than talk.—Glenwood News.

TWO WAGONS of getting rich.—The man who robs you on the road, A highwayman is he; The grocer giving you low weight, A low weight man he.
